

Capricorn Plinth

The Capricorn design is guided by classical principles like symmetry, balance, and simplicity. As a plinth, it offers a sleek and understated platform for treasured art objects, or even a beautifully arranged bouquet. We can make it in steel, finishing it in your choice of standard or specialist options. Alternatively, we can build it in stainless steel, polished to perfection for a futuristic feel. Finally, we can either fit the top with a 15mm glass plate or leave the metal bare. For guidance on selecting the right plinth for your project, we invite you to have a look at our journal post.

Materials:

Base: Steel or Hand Polished Stainless Steel

Finishes: Standard & Specialist

Lead Time:

10 Weeks

Product Dimensions

Height: 110cm/43.3in

Width: 23cm/9.1in

Length: 35cm/13.8in

Height: 120cm/47.2in

Width: 26cm/10.2in

Length: 40cm/15.7in
