

Cloud Etagerie

Our Cloud etagere was originally designed to display artworks and craft objects at exhibitions and fairs. We were really pleased with the result, which not only creates a beautiful backdrop for art pieces but contributes an elegant, formal effect. We cast our classic Cloud shape as shelves, with a steel frame which borders crisp, clear glass. They're supported by sleek spears of metal, forged using traditional blacksmith's techniques to create a captivating surface and introduce a svelte, tapered shape.
